### Report:

The department organized an International E-Conference on Emotional Intelligence and Gender Difference in Indian Literature on 22.01.2021 and 23.01.2021 in collaboration with Department of Psychology and Department of Tamil. Dr. Prashant Subhasrao Mothe, Assistant Professor of English, Adarsh Mahavidyalaya, Osmanabad, Maharashtra addressed the staff, students and research scholars on Indian English Literature. The seminar on Emotional intelligence helped to build stronger relationships, succeed at school and work, and achieve the career and personal goals. It helped to connect with the feelings, turn intention into action, and make informed decisions about what matters applicable to. High emotional intelligence can help to navigate the social complexities of the workplace, lead and motivate others, and excel in the career. In fact, when it comes to gauging important job candidates, many companies now rate emotional intelligence as important as technical ability and employ EQ testing before hiring.
