INNOVATION AND STARTUP ECOSYSTEM ENABLERS

The Department of English (SSC), in association with the Institution's Innovation Cell (IIC), organised a webinar on Innovation and Startup Ecosystem Enablers on 30th March, 2021. The Chief Guest, Mr. P. Vijayavel CEO, Social activist and Green Visionary, DCE Technology and Jaam Communications, Virudhunagar gave a speech on the topic **Innovation and Startup Ecosystem Enablers**. Mrs. Maria Sahaya Sharmila, Co-ordinator, Department of English (SSC) delivered the welcome address. The speaker very proficiently explained the term 'Ecosystem' and the hazardous waste which is emitted in the environment. He spoke about different types of trees which could be grown in this humid climate. He insisted that each and every individual should be responsible and come forward to form teams to save our environment. Terrace Gardening was also highlighted in his speech. The discourse was followed by a question and answer session in which the participants of the webinar asked many thoughtful and valuable questions. Ms. Hermina, Assistant Professor of English, delivered the Vote of Thanks. The webinar ended with the college anthem.

ENVIRONMENTAL BENEFITS

- 100 Trees can remove the amount of pollution produced by 1 human being for a lifetime.
- 1 Tree is enough to absorb 48 lbs of carbon dioxide in the air in a year.
- Lowers urban temperature by about 3 C.
- 1 Tree collects and breaks 2380 gallons of rainfall a year reducing runoff and flooding.
