

PG Department of Chemistry

The Post Graduate department of Chemistry was introduced in the year 2016 under self-supporting courses. The programme commenced with a strength of 9 students with 2 staff members. The department has well qualified faculty and excellent infra-structure with equipped laboratory. The department offers various courses such as Green Chemistry, Pharmaceutical Chemistry, Industrial Chemistry and Processes, Nanoscience and Nanotechnology, Medicinal Chemistry, Research Methodology, Computational Chemistry etc. to enhance the skill of the students.

Vision

To enhance the knowledge of students and mould them for a better future.

Mission

- To create a sound knowledge in chemistry.
- To make the students to understand the life-time applications in chemistry.
- To enrich the subject related skills of the students and apply the same in their life.

Course Offered

PG - M.Sc. Chemistry (SSC)

The PG Department of Chemistry was introduced in June 2016.

The department provides a creative and supportive atmosphere for student learning. The curriculum provides hands on experience with modern experimental techniques, preparing students to enter industry and professional programmes. To promote the students to develop an innovative inter disciplinary research program.

The department provides a comprehensive, relevant curriculum, producing knowledgeable graduates for careers in academia, industry and government. It promotes the exchange of ideas, independent thought and highest ethical standards.
